"80% of application performance problems and network downtime can be attributed to a configuration change or error." *-Network World, 5/07*

Hello Sir/Madam,

Are you spending too much time troubleshooting configurations and locating users?

Introducing the Extreme Networks® "smart enterprise network" solution. Identity Manager extends the ExtremeXOS® automation framework, for easier deployment of new hardware and software, and pinpoint monitoring of mobile users and devices.

Gain clearer visibility from network core to edge. Boost the availability of business-critical services. Reap the time-savings of a "smart enterprise network"—device-agnostic, service-aware and adaptively resilient.

Download our complimentary white paper: *Smart Connectivity: Managing the Enterprise in the Age of Convergence*
